

# Borders and Edgings

## A Lace Construction Workshop

Join Andrea Jurgrau, from BadCatDesigns, for a lace knitting workshop at Knitting Nation. Andrea will provide a workshop handout that includes a new pattern with original charts. Techniques will include Picking-up around a center piece, working a border in the round and working a knit-on edging with corner miters.

Materials are available at the shop and will vary by your choice of project. Project options include linen or hemp bath accessories or a larger square shawl. Each participant will choose a project based on their interest and ability. There is something for every level of knitter! Bring a selection of knitting needles to the first session. You will have the option of keeping things simple or making them more challenging!
